

SEG | DGS Workshop: Challenges & New Advances in Velocity Model Building

9-11 March 2021 | Virtual Workshop

Considering the differing guidelines and travel restrictions by each country and organization, SEG, DGS and the technical committee have collectively decided to move ahead with the workshop, virtually from 9-11 March 2021.

Technical Program

Technical Program now available in different time zones for your easy reference.

Opening Speakers

- Saleh Al-Saleh, Saudi Aramco
- Abdullah Al-Maamari, Petroleum Development Oman

Closing Speaker

- Arthur Weglein - University of Houston

Keynote Speakers

- Aria Abubakar, Schlumberger
- Brian Hornby, Hornby Geophysical Services, LLC
- Daniele Colombo, Saudi Aramco
- Denes Vigh, Schlumberger
- Eric Verschuur, Delft University
- Ian Jones, ION
- John Etgen, BP
- Tariq AlKhalifah, KAUST
- Sherif Hanafy, KFUPM

Technical Topics:

- Role of Acquisition
- Non-Seismic methods
- Poster Session
- Borehole seismic
- Near surface
- Anisotropic velocities
- Wave Equation Tomography
- Big Data and Machine Learning
